10:18-11:9	Objection to Exhibit 734, relevance, 403 	Exhibit 734 is not a part of the testimony here; the objection makes no sense. To the extent the objection is to Exhibit 730, deponent testified he recognized the CBL 101 depicted in the picture. A depiction of the barge is plainly relevant to the issues and claims here. Plaintiffs have used this picture of the barge with their witnesses at trial.
